With 3 years of experience in front end development with a strong background in process and system management, I specialize in building high performance web applications using ReactJs and NextJS. Proficient in Agile environments, and skilled in developing React components, responsive design, coding standards, and conducting code reviews.

Coding and solving problems is not just a job for me. I really enjoyed it and I do it JS tasks in my spare time like a hobby for my logical brain. I have a reputation for accuracy, loyalty to the company, and quick learning, and I am fully prepared to contribute to the team's success. You can easily hire a multitasking employee who can bring more productivity and freshness to your team.
